2 **M. COAL SEVERANCE TAX PROJECTS**

(1) Projects Authorization and Appropriation: Notwithstanding KRS 42.4588(2) and (4), the following projects are authorized and appropriated from Local Government Economic Development Fund moneys from the respective single county fund pursuant to KRS 42.4592 for public purposes in the following coal-producing counties in the manner and amounts enumerated. These projects are determined by the General Assembly to be important to the furtherance of the public policy objectives and economic development purposes for which the Local Government Economic Development Program was established. The amounts appropriated are estimates. Actual expenditures and encumbrances shall be limited to the actual receipts realized and available in the respective single county fund. These amounts are comprised of estimated receipts for fiscal year 2006-2007 and fiscal year 2007-2008 in combination with prior unobligated balances in the respective single county funds. To the extent that a county that is authorized to proceed with a project enumerated below receives more single county Local Government Economic Development Fund moneys than are appropriated in this Act, the county may direct those funds to offset a cost overrun on any of the projects enumerated below upon approval of the Commissioner of the Governor's Office for Local Development.

20 **(2) Water and Sewer Projects:** The following projects that are related to water
21 and sewer shall be administered by the Kentucky Infrastructure Authority.
